We are glad to organize an office visit for the students from HKSKH Bishop Hall Secondary School (Sau Mau Ping) (聖公會何明華會督中學). During the office tour, our department heads shared a lot about their personal development experience and career paths in the technology industry.

More excitedly, the students were able to attend a workshop on Google Cloud with hands-on experience to set up their own Google Cloud server 😊

It is such an amazing experience for us and the students. Not only does this give students a chance to get to learn what the REAL TECH WORLD looks like, but also can we know more about the new generation.
